Project Design Phase
Proposed Solution

Date	22 September 2026
Team ID	
Project Name	An employee requests installation of licensed software through the service catalog
Maximum Marks	2 Marks

Proposed Solution :

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Employees may face difficulties in requesting licensed software because the process can involve manual communication, unclear approval procedures, delays, and limited visibility into request status.
2.	Idea / Solution description	Develop a ServiceNow Service Catalog solution that allows employees to select licensed software, submit the required details, obtain manager approval, and automatically route approved requests to the IT Support Team for installation.
3.	Novelty / Uniqueness	The solution provides a centralized and automated software-request process with approval routing, license verification, IT assignment, status tracking, and notifications in a single ServiceNow platform.
4.	Social Impact / Customer Satisfaction	Employees can request required software easily and track progress without repeated follow-ups. Faster approvals, clear communication, and timely installation improve employee productivity and satisfaction.
5.	Business Model (Revenue Model)	This is primarily an internal enterprise solution rather than a direct revenue-generating product. It helps the organization reduce manual effort, improve IT efficiency, manage software licenses effectively, and reduce operational costs.
6.	Scalability of the Solution	The solution can support increasing numbers of employees, software requests, approval processes, and IT teams. New software catalog items, workflows, approval rules, and integrations can be added as organizational requirements grow.

Service Catalog > Software > Software Installation Request

Search catalog

equest to install company- approved software

Allows employees to request software installations . Fullfill via support team.

Select urgency level.

What software do you need?

Microsoft Office 2005

Specify version (if required).

2021

Why do you need this software?

Required for daily work
